

2024 – 2025 Mathematics Overview → Year 5

Autumn 1 (8 weeks)	Counting and comparing (Place Value)	Autumn 2 (7 weeks)	Calculating: multiplication and division	Spring 1 (6 weeks)	Exploring fractions, decimals and percentages	Spring 2 (7 weeks)	Investigating properties of shapes	Summer 1 (4 weeks)	Calculating space (area/perimeter/volume)	Summer 2 (7 weeks)	Mathematical movement (Translating/symmetry/reflection shapes)
	Calculating: addition and subtraction		Numbers and the number system (Primes, factors, multiples, squares)		Measuring space (Converting units of measure)		Presentation of data		Checking, approximating and estimating 2		Visualising and constructing Nets
	Exploring time		Checking, approximating and estimating 1		Calculating fractions, decimals and percentages		Investigating angles		Consolidation of fractions, decimals, percentages in preparation for Year 6		
	Calculating: multiplication and division (multiplying and dividing by powers of 10)
